BULLETIN NO. 282  
CATASTROPHE SERIAL NO. 49

TO: COMPANIES, REPORTING ASSOCIATIONS, COMPANY BRANCHES  
AND OTHER INTERESTED ORGANIZATIONS

DISORDERS

Gentlemen:

This bulletin is to clarify two questions which have arisen as a result of the issuance of Catastrophe Serial No. 49 to be applied to losses during 1967, arising from disorders which have not otherwise been assigned a catastrophe serial number.

There is no exact definition of what is to be classified as a "disorder." If a company pays the loss under a coverage provision, with the intent that it be considered a disorder, it should be so reported. Isolated incidents are often considered malicious mischief or vandalism, but this determination must, likewise, rest with the company.

Attached is a list of all possible locations we have learned of that would be eligible for coding of losses under Catastrophe Serial No. 49. Losses occurring in the future at a place not listed below which are not assigned a special number, but which arise from a disorder would, of course, be coded under Catastrophe Serial No. 49. We do not plan to update the attached list.

Very truly yours,

General Manager

LJS/vg  
Enc.

POSSIBLE LOCATIONS ELIGIBLE FOR CODING OF  
LOSSES UNDER CATASTROPHE SERIAL NUMBER 49
